Switchback Suit

(SWITCHBACK)

From: \$159.99

To: \$359.98

Price as configured:
\$0.00

This is the ultimate in comfort and extreme weather protection. Like the title suggests, the new ScentBlocker Switchback offers options. It's like having two suits for the price of one. Pick your poison- either Realtree AP Snow or Realtree Xtra, either one is perfectly deadly. Utilize the ultra soft and super quiet fabric with high definition Realtree Xtra on the outside for cooler, dry hunts toward early season. Or, when things get nasty, the kind of late season weather hunter's dream of, Switchback can easily be reversed to expose its Sherpa Fleece AP Snow security cloak. Aside from virtual infield invisibility, scent control is paramount to avoid detection during spot and stalk and ambush situations, or when calling predators in close enough to kill so ScentBlocker fused proven S3® Silver Anti-Microbial treatment to prevent the formation of odor causing bacteria right into the fabric. Of course the details have not been forgotten with elasticized cuffs on wrists, an adjustable draw cord waist that cinches to keep the snow out when low-crawling to get closer, and the storm flaps on both hood and pockets for full featured foul weather protection. Adaptation is the key to survival in the wild. Don't be limited by weather or camouflage. ScentBlocker's new Switchback jacket and bib set will help hunters adapt, overcome... and tag out.

- Soft quiet tricot reverses to thick warm Sherpa Fleece
- Attached hood with crown and side adjustment points
- Full zipper with storm flap
- 2 zippered pockets with storm flaps
- Elasticized wrist cuffs
- Adjustable draw cord waist
- Grommated rear license loop
